▲ *Low Risk* ▲ *Uncorrelated* ▲ *Attractive returns.*

Increased volatility is now a common factor in today's financial markets and the need for diversification and alternative investment solutions has never been greater.

The EEA Life Settlement Fund provides a low risk asset solution with the prospect of stable and consistent returns totally uncorrelated to traditional markets.

- ▲ Aims to achieve a minimum benchmark net return of 8% per annum.
- ▲ Targets a consistent total net return of 9% -10% per annum.
- ▲ Invests in an asset class unaffected by volatility in traditional investment markets.
- ▲ Aims to provide stable and positive returns each month.
- ▲ Diversifies portfolios to reduce risk but maintain reward.
